Subject: RE: Replacement parts for Nutone 8832 fan

Hello Jim,

You are correct on the assembly. The 84757000 includes the parts listed #1-5. That would be the easiest to replace and the most cost effective.

Let me know if I can help further,

Jay

I am looking for replacement parts for Nutone 8832 fan. From your parts diagram I am not sure what part number 84757000B-unit assembly is. Is it the part key numbers 1 thru 5: blower wheel, venturi ring, motor, motor mount and motor clamp & mount assembly?

Thanks,

Jim Hanchett
